last year. While global headwinds persist, we remain focused on disciplined cost management, material optimisation, and driving continuous improvements across our operations.”

About Tamilnadu Petroproducts Limited

Incorporated in the year 1984, TPL is one of the leading manufacturers of industrial intermediate chemicals, viz., Linear Alkyl Benzene (LAB), Caustic Soda and Propylene Oxide in the country. The Company also sells Chlorine as a co-product of Caustic Soda.

LAB is used extensively in detergent production and also as solvent and binder in specialty products such as cable oil, ink, paint, insulations, etc. Caustic Soda finds wide applications in textile, pulp & paper, aluminium and soaps & detergents, etc. Chlorine finds use in vinyl chloride, chlorinated paraffin wax, pulp & paper, water purification, chlorinated solvents, etc., and Propylene Oxide is the feedstock for Polyols and other Petrochemicals production of which was commenced in 2018-19.

The Company is committed to sustain and improve upon its performance in petrochemical sector meeting all stakeholders' expectations following best practices. For further information, please visit the Company's website www.tnpetro.com or write to secy-legal@tnpetro.com
